AMENDMENT

Hon. Commissioner of Patents and Trademarks
Washington, D. C. 20230

Sir:

This amendment is submitted as a complete and full response to the Office Action dated November 23, 1992. Reconsideration of the application and claims is requested in view of the amendments and distinguishing features pointed out herein.

Please amend the application and claims as follows:

In the Specification:

On page 1;

Cancel the abstract on page 1 and substitute therefor the new abstract as follows:

ABSTRACT

SA This invention provides an apparatus and method of improving the ride, handling and steering characteristics of the tractor unit of a tractor-trailer rig or a truck which is used to haul loads over highways. The apparatus includes an air bellows spring ~~means~~ located directly over the leaf spring of said truck between the steering-wheels axle and the rear shackle of the leaf springs. The air bellows spring ~~means~~ is designed and located to apply a manually adjustable force to the leaf springs without creating any torque about the longitudinal axis of the leaf spring.
